No. 6227-39—L. 429, DATED BANGALORE, 24TH AUGUST 1891.

ORDER THEREON.—With the letters read above, the Comptroller forwards the reports of the Auditors of the funds of the Municipalities of the towns noted in the margin for 1890-91 and of the City of Bangalore for 1889-90.

1. Kolar.
2. Tumkur.
3. Hassan
4. Shimoga.
5. Chikmagalur.

2. The reports show that sums noted in the margin were expended without sanction or in excess of the Budget grants and that the sums noted below belonging to one Municipality or to one head have been erroneously credited to another.

		Rs.
1. Kolar	...	290 0 0
2. Tumkur	...	90 10 2
3. Hassan	...	938 12 2
4. Shimoga	...	543 9 5
5. Kadur	...	1,684 11 5

Municipality to which the amount has been erroneously credited.	Amount. Rs.	Municipality to which it ought to have been credited.
(1) Shimoga	1 0 0	Benkipur.
(2) Hassan	4 9 9	Saklespur.
Head to which the amount was wrongly credited.		**Head to which it ought to have been credited.**
Kolar Land Revenue	0 12 0	Municipal Revenue.

3 The sums expended over and above the Budget grants being small, they will be admitted for the present ; but in future the Presidents of the Municipalities should understand that they will be personally held responsible for any expenditure incurred over and above the grant or without due authority.

4. The receipts and expenditure as audited and accepted for 1890-91, are as given in the accompanying statement.

5. The Comptroller should issue the necessary instructions for the adjustment of sums of one Municipality erroneously credited to another and also for the adjustment of the excess charge of Rs. 85—15—2 erroneously paid in cash in 1890-91 in Tumkur.

6. Narain Rao, Police Inspector of Nagamangala was transferred to the Municipality of the Bangalore City as Octroi Manager and he gave up charge of his office as Police Inspector on 1st January 1890 and joined his Municipal Office on the 15th. For this period he drew his pay and travelling allowance amounting to Rs. 23—7—9 from the Municipal Funds. This seems to be right, if the transfer was made for public convenience, but if it was made at his own request, he must refund the travelling allowance he has drawn. The Comptroller will ascertain why the transfer was made and issue the necessary instructions.

7. With reference to the other defects in the system of accounts and the suggestions made by the Auditors and the Comptroller, the following instructions are

issued for future guidance of all Presidents. Care should be taken that these instructions are strictly attended to:—

I. All collections made in the Municipalities, whether they are made by Municipal servants or Shanbhogs of the towns, should be entered in the Day Book kept by the officer making the collections and remitted to the Treasury once a week with a challan remittance list and the Day Book, a detailed account of demand, collection and balance being written up and submitted to the Vice-President once a month with the dates on which the sums have been remitted to the Treasury. The Vice-President should, on receipt of the monthly statement, satisfy himself that all the moneys have been duly credited in the Treasury. If any money is directly paid in the Treasury, the Treasury Officer should obtain from the payor a challan in duplicate and forward one of them duly attested to the Vice-President with a statement of such receipts during the month in view to the necessary entries being made in his accounts.

The sale proceeds of fort stones in Hassan have not been brought to account. This is irregular. No sums once collected should be allowed to be expended without being brought to account.

II. Persons authorized to receive payments should be furnished with printed receipt books with counterfoils, each receipt being numbered. The payment should be noted both in the counterfoil and the receipt. If the person paying the money does not care to take the receipt, a note to that effect should be made in the counterfoil and receipt. The amounts given in the receipts and the counterfoils should be entered in figures as well as in words.

III. The challans forwarded with the remittance should show the name of Municipality to which the amount therein entered has to be credited. For instance, if any money is collected in one Municipality for another, the amount so collected should be specified.

IV. Pound-keepers are authorized by law to meet the charges of feeding the cattle from the amount of fees collected by them They may therefore retain such sums as they may require for feeding charges and remit the remainder only, but the challan and the Day Book should show the total collection made, the sums retained by them for feeding charges and the balance remitted. The Treasury Officer will show in his account the whole sum collected as receipts and the sum retained by pound-keepers as advances for charges. The President should obtain from the pound-keeper a detailed account of the charges once a month and pass an order sanctioning the charges. When the order is passed a cheque should be issued to the Treasury Officer authorizing him to credit the sums to advances by debit to charges. The President's order shall be the authority for the adjustment.

V. The commission paid to Shanbhogs and others for the collection of revenue should in no case be deducted from the collections. The entire realizations should be remitted to the Treasury and the commission disbursed on the receipt of a separate order from the President.

VI. When *half currency notes* are received in payment of the Municipal dues, the sums should not be credited in the accounts till the second halves are received, but the half notes should be sent to the Vice-President for safe custody, a note of the same being made in the Day Book, when the second halves are received by the Vice-President, the amount should be remitted to the Treasury

VII. The Day Book which accompanies the remittance should be signed by the Treasury Officer and returned to the person, who brings the money on the same day on which the money is received.

VIII. Payments should always be made by means of cheques in favor of the parties to whom they are due when the payment to be made is Rs. 10 or more. For disbursement of sums less than Rs. 10, a permanent advance of a small sum should be made to the Amildar or other officer authorized to make disbursements, from which the necessary expenditure should be incurred and the same recouped by them from time to time by the submission of the bills to the President with vouchers, when order for payment will be issued by means of a cheque in favor of the officer who disbursed the money. Under this system there will be no necessity for drawing cheques for sums which are not actually required for immediate expenditure and for keeping them in deposit to be spent hereafter. If there are any sums drawn for expenditure during previous years and kept in deposit, they should at once be credited in the accounts and a supplemental Budget submitted for their expenditure in the current year.

IX. Every Municipality should have all its transactions with one Treasury (District or Taluk) and pay all its receipts of every description into that Treasury. It must withdraw money required for disbursement only by cheques, specifying therein whether the payment should be debited to "Charges" or "Advances". Letters of credit will not be issued by the Comptroller hereafter, but the officer in charge of the Treasury may cash cheques of the President or of the Vice-President (when so authorized by the President) so long as there is a balance at his credit. The Treasury Officer should maintain a ledger of the lump sums of receipts and disbursements of each Municipality with the number of voucher relating thereto, so that he may see that no sums exceeding the funds available are disbursed. When there are no funds, the Treasury Officer should refuse to make payment without the special order of the Comptroller. The Treasury Officer has no power to question the payment ordered by the President if there are funds.

X. Some deposits seem now to be kept with the President without their being brought to account. This is not a right course. Every deposit should be brought to account and sent to the Treasury as soon as it is received and no repayment of deposit should be made without a special order of the President. When the order for payment is received, the Treasury Officer should satisfy himself that the deposit money ordered to be repaid had not been already withdrawn. This can be done by giving a separate number to each deposit in the deposit register and entering the repayments against it as soon as it is made. All receipts obtained on repayment of deposits should be stamped when the amount exceeds Rs. 20 in the same way as the receipts for any other payments are.

XI. If any of the salaries of the Municipal servants drawn in one month are not expended within the end of the month in which they are drawn, the same should be deducted from the next pay bill. When it has again to be expended, a supplemental bill should be forwarded with a note of the month in which it has been short drawn.

XII. No deductions should be made from the salaries after the bills have been passed and the money drawn from the Treasury. Any deductions on account of absence, &c., should be made in the bill itself and only the net amount drawn.

XIII. If a Municipal servant draws a salary not exceeding Rs. 20 and a separate allowance which together with the salary exceeds Rs. 20, separate receipts may be taken from him for the payment of the salary and allowance but if one receipt is taken, it must be stamped.

XIV. In the Acquittance Rolls the signatures or marks of the recipients should be invariably obtained.

XV. No salaries of Municipal servants should be broken and distributed among others without the sanction of the Municipal Boards and Government.

XVI. A pay register showing the sanctioned salary of each servant must be maintained for ready reference, alterations being noted therein from time to time.

XVII. Payments to Provincial or Local Funds should not be made in cash but by book adjustments in communication with the Comptroller. The proportionate charges on account of Dispensaries and Municipal Schools debitable to Municipalities, which are adjusted in the Office of the Comptroller will be intimated every month both to the President and to the Treasury Officer for being included in their accounts.

XVIII. A register of works sanctioned by the President or Government should be maintained and the payments made on account of the same noted in it from time to time.

XIX. All sums disbursed on account of Public Works before the completion certificates are obtained and the bill showing the measurements of works are finally passed, should be debited to advances and the amounts charged to the proper head, when the bill is finally sanctioned and a corresponding credit made to advances.

XX. A register of permanent advances for imprest and other purposes granted to each officer must be maintained. The person in charge of the advance will be held personally responsible for the sums entrusted to his care.

XXI. A stock register of tools and other property of the Municipality should be kept with the names of persons under whose charge they are.

XXII. English figures must be used in all books.

XXIII. All alterations in cheques and registers should be initialled by a competent officer.

XXIV. Presidents of Municipalities should arrange to obtain detailed statements of receipts and charges from the Vice-Presidents, and check them with the Treasury accounts. They should not compile their accounts from the Treasury figures.

XXV. In the Bangalore City, when tobacco is issued from the Koti by wholesale vendors on payment of duty, ½ seer of tobacco per maund is given to retail sellers in extra without duty. This course is wrong. Duty must be paid on the whole quantity issued, whether the owner receives its price or not.

XXVI. The duty on articles liable to octroi must be collected before the articles are allowed to pass and not afterwards, unless the traders have deposited sufficient sums in the Treasury as security and have obtained the permission of the Presidents to settle their accounts periodically.

XXVII. License fees prescribed must be collected in full whether the license granted is for the whole year or a portion of the year.

XXVIII. When taxes or rents undergo alterations, they should be noted in the column of remarks of the register of the previous year, but the figures in the register should not be altered.

Proceedings of the Government of His Highness the Maharaja of Mysore, (Financial),—dated 24th August 1891.

XXIX. In some Municipalities no registers showing the demand payable by eac individual seem to have been kept. This is not right. A register showing the demand of each individual and the amount paid by him in each month should be maintained, so that the balance due at the end of each month may be readily ascertained.

The Comptroller is requested to issue detailed instructions to the Auditors in regard to the manner in which the audit is to be conducted. No sum spent for a work should be admitted unless there is a bill showing the measurements of the work and a completion certificate, and all sums placed under objection should be shown in a separate statement, the reasons for the objection being stated briefly against each item. Every sum expended should appear under one or the other of the classified items, and not against general savings, as has been erroneously shown in some of the statements now received. If any sum expended is wrongly shown under one head instead of another, the Auditor should propose the necessary adjustment and submit a statement of such adjustments for final orders.

The Comptroller is also requested to submit a draft of instructions to be issued in regard to District Funds, in accordance with the spirit of the instructions above issued in regard to Municipal Funds.

Revenue and General Depart.

Sir,

I have the honor to state that it has been brought to notice by the Deputy Amildar of Closepet that while the amount of weekly collections from the Cattle Pound at Closepet is but small, the pound keeper has, in the absence of a Treasury in that place, to take the remittance every week by rail or by road to the Treasury at Channapatna.

2. In Para 1 of Government Circular No. 6227-39 dated 24th August 1891, all collections made in Municipalities are required to be entered in a book and remitted to the Taluk Treasury once a week.

3. In places where there is no

Treasury,

Treasury, like Closepete, the strict observance of the above rule seems to entail some avoidable inconvenience and hardship. The pound keeper has to travel every week by rail to and from the Taluk Treasury, and even if he does so by road, his other work unavoidably suffers.

4. Under these circumstances, I would recommend that the District officer may be allowed ~~with~~ a modicum of latitude, so as to permit the remittance being made once a month instead of every week.

I have the honor to be,
Sir,
Your most obedient Servant,

Deputy Commissioner.

L.F. 157-95

In May 1896, the Deputy Commissioner of Bangalore brought to notice the inconvenience caused to the pound keepers at Closepet in having to go to Channapatna by rail for remitting the pound collections, which are small

Para 7 (I) of Govt Proc No. 6227-39 dy 24 August 1891 requires that Municipal collections should be remitted to the Treasury once a week. It appears, however, that the replies received from the Municipalities in the average amount of monthly collections from cattle - pounds in the mining municipalities is in excess of Rs. 5 in every case.

; so that at such intervals as probably entails ~~as~~ inconvenience. so as to permit the Government are, therefore, remittance, once in a to direct that, every month. of such future, the collections collections in places cattle-pounds where no treasuries in all Municipalities exist at present. The other than those at District Deputy Commissioners and Taluk Hd Quarters, of Districts were required be remitted to the to submit statements treasury once in a showing the pound col- fortnight, instead of lections in the aforesaid once a week as at Municipalities. From the present. replies received it would appear that the average collections are very small, not exceeding Rs 28 in any instance. The Government are therefore advised
